KCCR

1000 Watts

Vilas Bldg.—P.O. Box 55
Telephone CA 4-7381
Pierre, South Dakota

Feb. 11, 1962.

Dear Mr. Wesolowski:

I am happy to confirm or verify your reception of our station on Wed. Feb. 7 from 6:10 P.M. to 6:15 P.M.

Our studios are above the Vilas Drug Store in downtown Pierre. Our transmitter is located about 2 miles east of the city limits on Highway 34. We have a Gates BC-1 1000 watt transmitter, with a 200 ft. tower.

We make our monthly frequency check usually the 3rd Sun. in the month from 12:05 a.M. to 12:15 a.M. C.S.T.

We have had two reports from Indiana, and one from New York State, but both of these were received during our early morning frequency checks.

Thanks for your letter.

Very truly yours,
Sheldon H. Smith,
Chief Engineer.
